### HOW TO REPLY TO THIS NOTICE:

#### I. Review the SMALL ENTITY status shown above.

If the SMALL ENTITY is shown as YES, verify your current SMALL ENTITY status:

A. If the status is the same, pay the TOTAL FEE(S) DUE shown above.

B. If the status above is to be removed, check box 5b on Part B - Fee(s) Transmittal and pay the PUBLICATION FEE (if required) and twice the amount of the ISSUE FEE shown above, or

If the SMALL ENTITY is shown as NO:

A. Pay TOTAL FEE(S) DUE shown above, or

B. If applicant claimed SMALL ENTITY status before, or is now claiming SMALL ENTITY status, check box 5a on Part B - Fee(s) Transmittal and pay the PUBLICATION FEE (if required) and 1/2 the ISSUE FEE shown above.

II. PART B - FEE(S) TRANSMITTAL, or its equivalent, must be completed and returned to the United States Patent and Trademark Office (USPTO) with your ISSUE FEE and PUBLICATION FEE (if required). If you are charging the fee(s) to your deposit account, section "4b" of Part B - Fee(s) Transmittal should be completed and an extra copy of the form should be submitted. If an equivalent of Part B is filed, a request to reapply a previously paid issue fee must be clearly made, and delays in processing may occur due to the difficulty in recognizing the paper as an equivalent of Part B.

III. All communications regarding this application must give the application number. Please direct all communications prior to issuance to Mail Stop ISSUE FEE unless advised to the contrary.

**IMPORTANT REMINDER: Utility patents issuing on applications filed on or after Dec. 12, 1980 may require payment of maintenance fees. It is patentee's responsibility to ensure timely payment of maintenance fees when due.**

## DETAILED ACTION

### *Response to Amendment*

1. The Examiner acknowledges the amended claims filed on November 28, 2008. **Claims 6, 8, 18, and 20** have been amended. **Claims 1-5, 7, 9-17, 19 and 21-27** have been cancelled. **Claims 28-41** have been newly added.

### EXAMINER'S AMENDMENT

2. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Monica Choi (Reg. No. 41,671) on January 20, 2009.

The application has been amended as follows:

**Claim 6** (Currently Amended). A method for luminance noise filtering in an imaging device, comprising:

inputting a region of pixel data from an image sensor;

determining a virtually filtered luminance from a first processing of said region of pixel data and without using other pixel data for a pixel location within the region;

determining a reference luminance for the pixel location from a second processing of said same region of pixel data and without using other pixel data,

wherein the reference luminance is determined after respective interpolated color components for the pixel location are determined such that the reference luminance is determined using said respective interpolated color components;

selecting between the virtually filtered luminance and the reference luminance as a final luminance of the pixel location depending on an adaptive luminance;

determining in a data processor, a threshold value from the adaptive luminance;

selecting the virtually filtered luminance if an absolute of a difference between the virtually filtered luminance and the reference luminance is less than or equal to the threshold value; and

selecting the reference luminance if the absolute of the difference between the virtually filtered luminance and the reference luminance is greater than the threshold value;

wherein the adaptive luminance is determined from an overall brightness of a previous image.

**Claim 8** (Currently Amended). A method for luminance noise filtering in an imaging device, comprising:

inputting a region of pixel data from an image sensor;

determining a virtually filtered luminance from a first processing of said region of pixel data and without using other pixel data for a pixel location within the region;

determining a reference luminance for the pixel location from a second processing of said same region of pixel data and without using other pixel data,

wherein the reference luminance is determined after respective interpolated color components for the pixel location are determined such that the reference luminance is determined using said respective interpolated color components;

selecting between the virtually filtered luminance and the reference luminance as a final luminance of the pixel location depending on an adaptive luminance;

determining in a data processor, a threshold value from the adaptive luminance;

selecting the virtually filtered luminance if an absolute of a difference between the virtually filtered luminance and the reference luminance is less than or equal to the threshold value; and

selecting the reference luminance if the absolute of the difference between the virtually filtered luminance and the reference luminance is greater than the threshold value;

wherein the threshold value is greater when the adaptive luminance is lower.

### ***Allowable Subject Matter***

3. **Claims 6, 8, 18, 20, and 28-41** (Renumbered as 1-18) are allowed.
4. The following is an examiner's statement of reasons for allowance:
5. **Regarding claim 6** (Renumbered as 1), the main reason for indication of allowable subject matter is because the prior art fails to teach or reasonably suggest,

Art Unit: 2622

including all the elements of the present claim, that the adaptive luminance is determined from an overall brightness of a previous image.

6. **Regarding claim 8** (Renumbered as 6), the main reason for indication of allowable subject matter is because the prior art fails to teach or reasonably suggest, including all the elements of the present claim, that the threshold value is greater when the adaptive luminance is lower.

7. **Regarding claim 18** (Renumbered as 10), the main reason for indication of allowable subject matter is because the prior art fails to teach or reasonably suggest, including all the elements of the present claim, that the adaptive luminance is determined from an overall brightness of a previous image.

8. **Regarding claim 20** (Renumbered as 15), the main reason for indication of allowable subject matter is because the prior art fails to teach or reasonably suggest, including all the elements of the present claim, that the threshold value is greater when the adaptive luminance is lower.

9. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
